

Debrief of Accreditation Decision-Making Activities,

Professional Services Division

April 11, 2005

Overview of This Discussion Item

The Committee on Accreditation has requested that time be scheduled at the end of each COA meeting in which accreditation decisions are made to reflect upon the decisions made and consider the particular issues arising out of the accreditation discussions and actions. From this discussion, the Committee is able evaluate the implications of these issues for the Committee's on-going practices and procedures. This allows the COA to maintain an on-going process of self-evaluation.
